

CHENNAI | GOAIR Records 153 pc growth

GoAir, a low cost airline, announced that it had registered an 84 per cent load factor for the month of June 2010. During the last quarter (April 2010-June 2010), GoAir had consistently registered average passenger loads in excess of 83 per cent. During the past year, GoAir had been on a continuous growth phase. For the period of April 2009 -March 2010, GoAir flew 2.41 million passengers as against 0.95 million passengers during the same period in 2008-2009 thus achieving a 153 per cent growth rate in passenger traffic.
