

### **GoAir sees 2010/11 revenue up 75%**

**MUMBAI:** Budget carrier GoAir expects sales in 2010/11 to rise by up to 75 per cent as growing air traffic boosts seat factors, and is in talks to expand its fleet to 20 aircraft from 9, Chief Executive Kaushik Khona said. "July and August are normally lower seasons... we see seat factors reaching around 88 (per cent) plus in October, November and December," he said. **REUTERS**
